

## HB-250D

### DELEGATE UNIT

Dedicated to HB series HT-7000C Conference system, the HB-350D delegate unit is designed for connection of 70 units with HB-250C chairman unit and it can also be extended up to 200 microphone unit with use of extension power supply. The HB-250D delegate unit can be deactivated with push of chairman unit priority button and only chairman will be able to speak at a time. The system power supply for all microphones is provided by the main unit HT-7000C at 24 safe voltages hence no separate wires and Phantom Pre microphone hubs are required.
